Web Developer | Backend Development Enthusiast
Indonesia

Summary

As a programmer with experience working on several projects, I have extensive knowledge and skills in software development. I have a strong background in programming languages such as PHP, Java, Python and JavaScript, as well as a deep understanding of programming concepts such as data structures, algorithms and software design.

Over the years, I have worked on a variety of diverse and challenging projects. These projects include web application development, e-commerce site creation, system integration, mobile application development, and more. I have collaborated with clients from various industries, including technology, e-commerce, healthcare, government and education, which helped me gain a deep understanding of their needs and create solutions that work for them.

Experience

Universitas Hasanuddin

Laboratory Assistant – Object-Oriented Programming

February 2026 - June 2026 (5 months)

Makassar, South Sulawesi, Indonesia

As a Laboratory Assistant, I was responsible for assisting students during programming practice sessions and ensuring smooth laboratory activities. My duties included providing technical guidance, explaining practical materials, and helping troubleshoot coding and project implementation issues. Additionally, I played a role in preparing tools and teaching materials to support an effective learning process.

Universitas Hasanuddin

Laboratory Assistant-Web Programming

September 2025 - December 2025 (4 months)

Makassar, South Sulawesi, Indonesia

As a Laboratory Assistant, I was responsible for assisting students during programming practice sessions and ensuring smooth laboratory activities. My duties included providing technical guidance, explaining practical materials, and helping troubleshoot coding and project implementation issues. Additionally, I played a role in preparing tools and teaching materials to support an effective learning process and I also a cohort of laboratory assistant that manage over 40 asistant.

Coding Camp powered by DBS Foundation

Coding Camp powered by DBS Foundation

February 2025 - July 2025 (6 months)

Indonesia

Currently participating in an intensive coding internship program focused on developing practical programming skills in a collaborative environment. Gaining hands-on experience through mentored projects while building a foundation in software development best practices. Developing both technical coding abilities and soft skills such as problem-solving, teamwork, and project management essential for a career in technology

Universitas Hasanuddin
